Captain Mike Gray

Cajun Odysea

Dear Captain Mike:

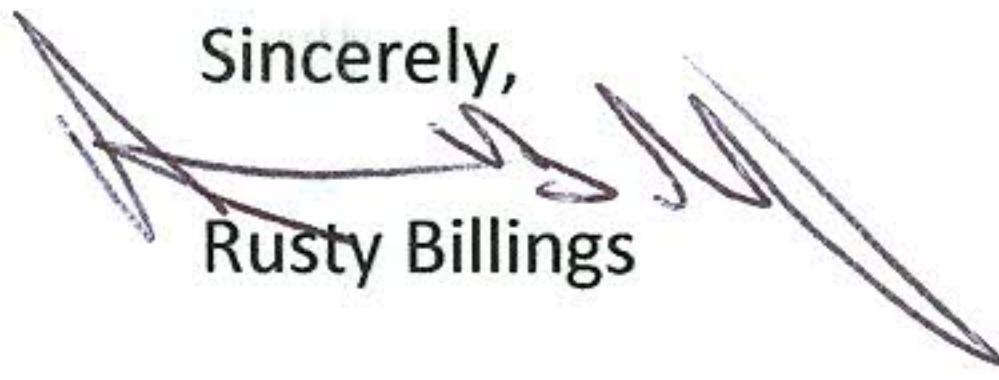

WOW! Is all I can say. That was the best fishing trip of my life! I cant believe we caught 5 YF-Tuna over 150lbs and back at the dock by 2:00 p.m.!! Your passion, knowledge, and dedication is second to none. Your Freeman 33' boat is the sweetest ride I have ever been in. All I can think about is clearing my calendar and finding a way to jump aboard the Cajun Odysea once again.

I have never been with a Captain who spends so much time and energy in making his clients happy. Your tackle and gear are Top Of The Line. Your Freeman is loaded out with the latest and greatest electronics technology can provide. The surround sound system is *First Class*. You spend hours on preparing and mapping out the next day's strategy. It's very obvious you love what you do and it shows.

Catching and sticking the gaff in that 150lb Tuna is something I will never forget. As an avid fisherman, it just does something to your soul ,and that my friend ,was the Pinnacle.

Thanks for the good times and your friendship. I cant wait until next time.

Sincerely,

Rusty Billings
